Another Witness for Dr. Robakc. We see that Dr. Jean Ledoux, a well-

known practitioner in Franklin, Louisiana, has come out with a strong indorsement of Dr. C. W. Roback's celebrated vegetable speeifics, the Scandanavian Blood Pills and Blood Purifier. He says, in a letter published in the Southern papers, "These medicines (the Pills and Purifier) undoubtedly relieve disorders incident to the digestive organs, improve the appetite, renew the strength, allay nervous irritation, and free the system from the impurities which generate and stimulate diseases of the stomach and the bowels." Such unqualified praise from such a source, carries weight with it, and seems to confirm the result of our own observations. Dr. Roback's advertisement in another column, deserves attention.

He thought Paulding committed a grave error, and that this re-mark by the President, was sufficient censure on the conduct of that officer. SENATE-Mr. Doolittle introduced a joint resolution directing the presentation of a medal to Com. Paulding.

WASHINGTON, Jan 18-P M SENATE-Debated motion to reconsider the ote adopting the amendment to the joint resolution, extending and defering the power of the President in regard to the nomination of officers who were affected by the action of the Naval Retiring Board, which amendment \$14 75@15. er of the President to nominate none six months after the passage of this act.

Brown gave notice of his intention to offer an amendment to Doolittle's joint resolution for medal to Paulding, to the effect that Congress has heard with surprise of the arrest of Walker and others at Punta Arenas by Paulding, and feeling satisfied that the said act was a violation of the territorial sovereignty of Nicaragua, and not sanctioned by any existing law of Congress. He disavowed the act, and being officially satisfied that Paulding acted without instructions from the President or Secretary of the Navy. Congress hereby expresses its condemnation of his conduct in this respect.

Adjourned. Horse.-Mr. Pottle said there was but one feeling among all right minded and disinterested men, and that was one of satisfaction that Walker had been arrested in his career of crime, and to that extent Paulding had vindicated the honor and ir tegrity of the country. He heartily concurred with the President in his views on this question. and although in the opposition he would en-deavor to sustain him as far as he could, even against the President's political friends. He entered his protest against the system of Americanization, which was so earnestly advocated on all sides of the hall. Before he could unite in it he must first understand by what right it was to be undertaken, and what the precise object and purpose. He denied that we have the right to Americanize Central America without invitation, and because that country would be advantageous to us. We had no right to lay violent hands upon it. Before undertaking to Americanize our neighbors they should be informed. Our theory of government as set forth in the Declaration of Inderendence, and its practical working under the Constitution in regard to human bondage. He carnestly deprecated territorial aggrandizement. The acquisition of every foot of land, as experience proves, has only weakened the country, and engendered animosity, before un-

Lamer frankly acknowledged the promo tion of Southern interests was secondary only to the preservation of Southern honor. Although the South was in a minority, she relying on the invincibility of truth and right, had been enabled to command the respect of friends, and defy the malice of her enemies. While justifying the Lecompton Convention and the result of their action, he said Gov. Walker violated his pledges, sas, scattered the fire brands of discord and dissention; and Stephen A. Donglas who was for lugging in California over all law, was now endeavoring to outrage the rights of the Southern States, and subjecting Kansas to the rigors of the inquisition, because there was a slight prospect of its becoming a slave.

The Chairman reminded the gentleman that it was not in order to allude to Senators

Mr. Lamar replied, he did not refer to any Senator, but to a distinguished aspirant for Mr. Montgomery contended that the true

doctrine is, that when the government is at peace with any nation, every citizen is at peace with it. If the government cannot invade a territory, citizens cannot. A treaty of peace is as broad as the country, and embraces every individual in it. It would be a monstrous dectrine if a hundred or a thonsand men could invade or attack neighborsand men could invade or attack neighboring nations which are at peace with us.—
Paulding did nothing but his duty in arresting Walker, and it was our duty, under the law of nations, to send him back for punishment by the offended State. The President has committed a mistake in being too mild and forbearing towards Walker.

Mr. Zollicoffer thought it was our best policy to let the neutrality laws stand. He did not believe Walker had violated them. He knew Walker was not a pirate and robber.
